- 11:25-11:30 AM : Vote of Thanks by **Dr. Nilansu Das**, HOD, Molecular Biology
Dept., Surendranath College

Activity Report

Name of Event: Webinar held on 4th October 2021

Topic - “A review on emerging and re-emerging infectious disease”

Invited Speaker: Dr. TARUN KESHWANI Research Scientist, Harvard Medical School, Centre for Immunology & Inflammatory Diseases (CIID), Massachusetts General Hospital

Date: 04/10/2021

Time: 2pm to 4.30pm

Webinar Platform: Zoom Cloud Meeting Platform

Organised by: Department of Microbiology in association with IQAC Surendranath College.

Number of Participants: 68

Summary: The lecture was designed to elaborate on the emerging and re-emerging diseases in the last 20 years and how it relates to the current Covid situation. The triangle disease model was illustrated with great details where the role of host, pathogen and the environment was discussed. For example, the speaker described the recent research on the ebola virus and pan Ebola vaccine development. Furthermore, great details on animal cell culture techniques in the study and research of infectious diseases were also discussed. The lecture was inaugurated by honourable principal Prof. Indranil Kar and the vote of thanks was delivered by Prof. Nilanshu Das, HOD Molecular Biology department. Feedback was collected from all the participants and a certificate was issued.
