Summary:

There are varied approaches in Social research. Application of such approaches require adept understanding of such perspectives. This lecture attempts to fulfill this objective. The core objective of this lecture was to equip the research scholars with a set of skills and potentiality to undertake the research very effectively in the disciplines of social science and to turn completed research into publishable material of high quality in the form of articles, journals and books. This lecture series is designed to offer the practical guidelines and direct the researchers through all the stages of research from identifying a research problem to the submission of a dissertation, report writing and research article. The program Intends to deal with a variety of quantitative and qualitative research methods used in social science research. It also gives exposure to data analysis with the help of software packages. By the end of the programme they are expected to develop conceptual clarity and practical knowledge to undertake quality research and to write good research papers, field-reports and project proposals etc.
