**Summary :** It was the first webinar organized by our department in the pandemic period. The webinar started with the inaugural speech by our Principal, Dr. Indranil Kar. Then our IQAC Co-ordinator Dr. Suchandra Chatterjee introduced our eminent speaker Prof. Mausumi Guha. The lecture was attended by around 70 participants including our college students, students of Jadavpur University and faculty members of our college as well as of other colleges. The esteemed speaker delivered her speech on a very relevant topic. It was an interesting session which provided needful guidance to the audience, i.e, both students and teachers who were facing same problems in the teaching- learning process following the online mode. Our esteemed speaker explained the concept of digital divide introduced by e-learning in education from the philosophical perspective in a very lucid way. The lecture was followed by an effective question-answer session. The speaker was formally given vote of thanks by Reni Pal, faculty member of our department for her valuable speech.

The presentation was full of philosophical approach giving a bird's eye view of the comparison between traditional classroom learning and electronic or virtual learning. The webinar not only enriched the participants, but also paved the way for such informative session to be organized by the department in future.
