Summary: A webinar was organised by the History Department on museums. In the prevailing situation created by the pandemic it was not possible to arrange for a visit to a museum by the students. But museum and archives being a part of the curricula, the students were sought to be given an idea about managing and organizing museums and archives in the private and government sectors as well as organizing exhibitions of artifacts. The webinar was very well attended, the interactive session was lively, showing that some students were willing to accept museology as a future course of study as well as career option.

In the second session, through a virtual visit, the students were given an in-depth idea about the Rabindra Bhavan Museum at Santiniketan, by Sm. Saswati Palchowdhury of the above museum, which made the webinar educative and interesting.
