

## NOTICE

3rd Year Pure general students (Sec-Y) (not belong to any hons) have to submit their ENVS project (written either in English or in Bengali, 10-15 pages, either hand written or computer typed) in the following mail Id within 19<sup>th</sup> July, 2021. E-mail id: [envs.p3bscg@gmail.com](mailto:envs.p3bscg@gmail.com)

### **ENVS PROJECTS--SUGGESTED TOPICS OR ANY TOPIC RELATED TO ENVs**

48. Arsenic pollution of ground water in Bengal
49. Global warming and its effects on environment.
50. Soil conservation & its importance.
51. Importance of renewable energy sources of natural origin.
52. Air pollution – Cause and effect
53. Water pollution – Cause and effect
54. Heavy Metal pollution and effect on human being
55. Importance of conservation of Sundarban forests and wildlife.
56. Air pollution from automobiles.
57. Pollution and its' effects on migratory birds
58. Pollution and sea level rise
59. Pollution monitoring of River Ganga
60. Nature and Importance of different ecosystems in sustaining the global environment.
61. Nature and concept of bio-diversity conservation through “Seed Bank”, “Field Gene Bank” and “Cryopreservation”.
62. Importance of wildlife conservation through National Parks, Sanctuaries etc.
63. Medicinal Plants of Bengal
64. Human Impact on Agriculture
65. Over Population & Environment hazards
66. Endangered plants of India
67. De-forestation and EIA
68. Ozone Depletion
69. Ozone Depletion
70. Save Water –Save Life
71. Agricultural pollution
72. Organic farming
73. Acid rain
74. Industrial pollution
75. Pollution prevention
76. Transport and the environment
77. Alternative fuels
78. Energy conservation
79. Efficient energy use
80. Geothermal energy
81. Hydroelectric energy
82. Solar energy
83. Wind energy
84. Agro forestry
85. Forest management
86. Genetically modified foods
87. Noise pollution
88. Sustainable agriculture
89. Sustainable forestry
90. Sustainable technology
91. Sustainable transport
92. Bioremediation
93. Green House Effect
94. Conservation –a necessary need
