## *Ode to Autumn*

*Autumn in Bengal is the season of joy, festivities and golden harvest. The season is endowed with Shiuli blossoms, Kaash flower which enthrals the hearts of people. No wonder many artists took this season as their inspiration to create their artistic work. The arrival of the season is marked by the festival of Goddess Durga where she blesses the entire human kind to prosperity and glory. The autumnal festivities continue with the celebration of Nabanna Utsav until the commencement of winter.*
